

## YOU GUESS

I go to tell a story,  
I go to say something,  
I'm thinking about a place  
and in it you play games.

It's a beautiful place  
you live in there.  
It is in Spain  
of course you know where.

There holm oaks  
with lots of acorns.  
You can go on and on  
and you will see loads.

Do you know the place?  
it's were you are.  
Here ends the game  
Extremadura is the name.

# **EXTREMADURA:**

**This is my favorite place,**

**where I fell happy every day.**

**What I like the most are the landscapes.**

**With a lot of different and nice shapes:**

**Mountains, valleys, rivers and lakes.**

**Many animals we can find too,**

**living free and happier than in zoos:**

**pigs , vultures, goats and sheeps.**

**With my friends and family...**

**This is all I need!!!**

## “A place: Extremadura”

Extremadura is  
a wonderful place,  
full of parks  
and full of lakes

During spring,  
the cherry trees,  
put The Valley;  
white and green.

All its people  
make you feel,  
right at home  
happy and pleased.

# I LOVE EXTREMADURA

It's extreme and hard,  
With the best cheese and ham  
peper, honey and cherries,  
acorn oil and berries.

Product , from the villaje are the best,  
Fruit and vegetables are always fresh.  
The people are funny and friendly,  
Always laughing, humor's ready.

I love my región,  
I love its colours,  
I love its people, its food,  
I love Extremadura for true.
